

Wildlife & Bear Awareness Seminar [WAS]

This instructor-led 3.5-hour course will help you and your staff to identify common strategies to create a safe travel or working environment in the Canadian wilderness. This training helps prevent fatal wildlife/human encounters. It includes a practical Bear Spray demonstration and practice session for each participant.

This professional training covers how to mitigate wildlife interactions. We start by identify predator species and other wildlife threats. Bear behaviour, awareness strategies and tactics to help you survive a Bear encounter are well covered. This includes an updated coexistence strategy with various types of wildlife such as Bears, Cougars, Moose, Deer, Canines, Wolverines, Wild Boar, Rodents, Bats, Snakes and emerging hybrid species including Coywolves.

In this 3.5-hour seminar, we study avoidance strategies and the safe use of wildlife deterrents including Bear Spray and Bear Bangers. We cover safe practices for expected and unexpected overnight stays in the wilderness. BWI has customized presentations for British Columbia, Alberta, Saskatchewan, Manitoba, Ontario, Quebec and we are always ready to teach to a group online or in-person wherever you are located in English or French. Learn to Work Safe in the wilderness in this highly educational seminar.
